A Goal of the Conference

Economic and social importance of road and urban transport is not negligible. Road and urban transport ensures mobility of inhabitants and goods transportation according to still varying consumers' requirements. The development of individual motoring and road freight transport causes many negative effects. Ones of the most serious negative effects are large number of accidents with incalculable losses of human lives, damage to property and adverse impacts on the environment. Despite the mentioned facts the life without cars is unimaginable nowadays. Searching for suitable further development of road and urban transport in present conditions in Europe, as well as outside Europe, in conditions of globalization represents looking for suitable consensus among safety, environment, technical, and economic demands. Searching for new solutions in area of mobility of people as well as logistics solutions which involve road transport should emphasize the dynamics of development in recent year for example introducing telematics. On the other hand, it should also point out the lack of professional staff, the possibility of changing the size and weight of vehicles as a tool for reducing energy consumption and negative impacts on the environment.

The Conference should be the forum for meetings and exchange of views of the experts from fields associated with road and urban transport.

Conference Scope:

- Legislation and safety issues, environmental requirements for road and urban transport,
- Technology of operation and management of road and urban transport,
- Public transport financing in Slovakia and abroad,
- Integrated transport systems,
- Management of transport systems and intelligent transport systems,

- Using information technologies in management of transport processes and transport companies,
- Methods for increasing efficiency of road and urban transport,
- Road transport as a part of intermodal transport,
- Quality in transport services,
- Logistics,
- Information and Communication Technologies in Transport Systems,
- IT Service Management,
- Reliability in Transport Services
- Smart Technologies in Public Transport.

Conference is intended for:

- scientific and research workers in area of transport and university teachers,
- managers and workers in transport and forwarding companies,
- employees of state and public administration in the field of transport,
- manufacturers, importers and retailers of automotive technology.

Scientific papers in English will be published in the 1st part of the conference proceedings after being subjected to peer review. The conference organizers are doing all necessary steps to include them in the **Web of Science** database.

The papers which do not correspond to the thematic scope of the Conference will not be accepted for a peer-review process.

Each participant of the Conference can be an author or co-author of maximum of two papers.

Expert papers and presentations will be published in the 2nd part of the conference proceedings with a separate ISBN.

This way, we would like to invite you to the 8th International Scientific Conference “CMDTUR 2018” which already has its tradition.

prof. Ing. Jozef Gnap, PhD.

The Head of Department of Road and Urban Transport

VENUE OF THE CONFERENCE

AULA BG2A1 – Datalan

University of Žilina in Žilina

CONFERENCE FRAMEWORK PROGRAM

04.10. 2018

09:00 – 10:00 hod.	Registration
10:00 – 12:00 hod.	Conference opening and plenary session
12:00 – 13:00 hod.	Lunch
13:00 – 15:00 hod.	Conference program
15:00 – 15:30 hod.	Coffee break
15:30 – 17:30 hod.	Conference program
from 18:00	Dinner

05.10. 2018

08:30 – 10:30 hod.	Conference program
10:30 – 10:45 hod.	Break
10:45 – 12:30 hod.	Conference program
12:30 – 13:00 hod.	Coffee break
13:00 – 14:30 hod.	Conference program
from 14.30 hod.	End of the Conference

- According to the number of submitted papers and their focus, the conference program is supposed to be divided into the following sections: Public Passenger Transport, Road Freight Transport, Technical Operation, Vehicle Diagnosis, Road Safety, and Logistics, Information and Communication Technologies in Transport Systems.

Organizational Instructions

Conference languages: Slovak, Czech, English

Conference fees:

Price:

		Registration till 30.6.2018	Registration from 1.7.2018
Active participation (lecturer)	2 days (4.-5.10.2018)	170 €	204 €
Active participation (lecturer and publication in WoS)	2 days (4.-5.10.2018)	240 €	288 €
Passive participation	1 day (4.10.2018)	110 €	132 €
Passive participation	2 days (4.-5.10.2018)	190 €	228 €
Publication in the conference proceedings WoS (without participation/maximum two authors) - SR	-	150 €	180 €
Publication in the conference proceedings WoS (without participation/maximum two authors) – outside SR	-	125 €	* 150 €
Sponsorship	-	individually	individually
Advertisement in the conference proceedings (1 page) including one participation fee	-	450 €	540 €
Placing an advertisement banner including one participation fee	-	500 €	600 €
